

Letter of financial hardship

To Whom it May Concern

Date: 5/24/04

Difficulties created by seperation, illness, Medical Bills, reduced income, too much debt + unemployment.

condition is permanent.

statement.

In March 03 I had to resign my position at the U.A. Hospital due to prolonged and ongoing illness's related to my work environment. I have been unable to find suitable employment due to health factors. My husband operates a breeding dog kennel but income and expenses vary widely month to month and expenses for living was increasing with added taxes for the house in Portland and we were fast headed for bankruptcy and unable to file due to filing in 2000. We were forced to find a lower cost of living to prevent becoming homeless. When I lost my job I also lost medical coverage and with a series of illness's + injuries combined with increased Taxes in Mult. Co. gave us no alternative we could see. Me + my husband are now currently seperated and I stay with friends when not visiting my disabled son.
